

## DS218S

DS218S subwoofers is built from high-density, multi-ply birch plywood. Shaped with CNC-machined, interlocking panels, the cabinets can reduce resonance effectively. Extended low-frequency reach and tightly focused energy deliver deep, punchy bass with exceptional transient response.

Dimension(W×H×D): 1206x565x694mm

### FEATURES

- Waterproof Rating IP54
- Customized ProDriver
- Optimized Compact Versatile Enclosure Design for Flexible Use
- Durable Polyurea Coating
- Premium Wood

### SPECIFICATION

|                                            |                                                  |
|--------------------------------------------|--------------------------------------------------|
| Type                                       | Passive Subwoofer                                |
| Power                                      | 1200W                                            |
| Frequency Response(-10dB)                  | 30Hz-150Hz                                       |
| Maximum Calculated SPL/1M(Continuous/Peak) | 131dB/137dB                                      |
| LF Driver                                  | Customized driver, 2x18" voice coil and 4.0"exit |
| Impedance                                  | 8Ω(+2,-2)                                        |
| Crossover Mode                             | External (active) crossover                      |
| Input Connectors                           | Speakon 4Pin                                     |
| <b>Cabinet</b>                             |                                                  |
| Cabinet Material                           | CNC made of excellent wood                       |
| Coating                                    | Durable Polyurea Coating                         |
| Temperature range                          | -20℃~+50℃                                        |
| Cabinet Color                              | Black is the default color                       |
| Grille                                     | Iron mesh                                        |
| Handles                                    | 2 side                                           |
| Base                                       | M20 base Φ35mm                                   |
| Speaker Dimension(W×H×D)                   | 1206×565×694mm                                   |
| Carton Dimensions (W×H×D)                  | 651×1331×780mm                                   |
| Net Weight                                 | 66.0kg                                           |
